Mohammed Al-Alimi

Berlin, Germany · +49 176 42033458 · alalimim14@gmail.com · LinkedIn · GitHub

Computer Science student who ships AI systems end to end, from live computer vision deployments to RAG pipelines in production. Board member at Berlin's largest student entrepreneurship network, aiming to start my own company.

EDUCATION

SRH Hochschule Berlin — *Expected Apr 2027*
B.Sc. Computer Science · Grade 1.8 (German scale, 1.0 = best) — *Berlin, Germany*

SKILLS

Languages Python · JavaScript · SQL · Java · Dart / Flutter · HTML & CSS
AI & Data RAG · YOLO26 · ByteTrack · CLIP · Pinecone · Gemini · Claude Code · Cursor
Infrastructure AWS · Azure · Docker · FastAPI · Supabase · Firebase · Vercel · Git · Make.com · SQLite · Streamlit

EXPERIENCE

Intern – Digital & Business Intelligence — *Mar 2026 – Present*
act.3 GmbH — *Berlin, Germany · On-site*

- Building an AI crowd detection system measuring 61K+ expo visitors, from camera setup to live dashboards
- Designed for GDPR compliance: faces blurred in real time, with no personal data stored or retained
- Building a RAG pipeline that consolidates client knowledge across sources to power internal AI research
- Shipped an Azure-hosted RFP dashboard with AI classification of project data and SharePoint integration

Working Student – Digital & Business Intelligence — *Sep 2025 – Mar 2026*
act.3 GmbH — *Berlin, Germany · On-site*

- Built Make.com automations and data pipelines that streamlined reporting workflows across client accounts
- Created BI reports and dashboards supporting data-driven decisions on marketing campaigns
- Prototyped an internal AI newsletter tool that scrapes and curates social content, pitched to management

Head of Growth & Board Member — *May 2025 – Present*
START Berlin — *Berlin, Germany*

- Leading growth across LinkedIn and Instagram for Berlin's top student entrepreneurship network
- Ran 15+ visits to Berlin's fastest-growing startups and VC funds
- Co-organized AgentCon Berlin (AI Agents World Tour) at CODE University and community events hosting 100+ attendees
- Serving on the board, driving growth strategy, partnerships, and community communications

Software Engineering Resident — *Apr 2025 – Dec 2025*
Headstarter AI — *New York, NY · Remote*

- Shipped 5 AI projects in 7 weeks across machine learning and full-stack development, mentored by engineers from Google, Meta, and Microsoft

PROJECTS

AI-Powered Crowd Detection — *Mar 2026 – Present*
Company project · ~120 hours · Github Backend · Github Dashboard

- Piloted for a major athletics company at the 2026 Cape Town Marathon expo, running live for 3 days
- Measured 61K+ visitors across 6 zones of the venue with 6 live cameras, tracking occupancy and dwell time
- Built with YOLO26, ByteTrack, FastAPI, and SQLite; faces blurred, only anonymous aggregate data stored
- Designed a decoupled live dashboard with occupancy counters, heatmaps, camera health, and hourly analytics

Virtual Kaffe – Multimodal RAG Chatbot — *Nov 2025 – Jan 2026*
University project · ~80 hours

- Built a multimodal RAG chatbot answering questions from PDFs, images, and video frames via CLIP embeddings
- Implemented agentic chunking with Gemini and dual-namespace text / image retrieval in Pinecone
- Shipped a Streamlit chat UI with a RAG toggle demonstrating grounded answers against LLM hallucination

Aurora – AI Flashcard and Quiz Generator — *Mar 2025*
Solo project · ~50 hours · Github Aurora

- Built a study app in Flutter with Google ML Vision and Bloc architecture: flashcard generation from PDFs and text, SM-2 spaced repetition, quiz practice, and a local Isar database

CERTIFICATIONS & LANGUAGES

Startup School – Y Combinator — *May 2026*
Private Equity and Venture Capital – Università Bocconi — *Jun 2026*
AWS Certified Cloud Practitioner — *May 2025*
Google Data Analytics Professional Certificate — *May 2025*
